AND NAC SIGN-ONS BY U.S. PROVINCE LEADERS: March 2021**

Prepared by Brigid Lawlor, RGS

**COVID – 19 RELATED**

**NAC FOCUS AREA: IMMIGRATION**

**ISSUE: DEPORTATIONS AND EXPULSIONS**

General Content: 1) Halt all deportations and expulsions, which are occurring in violation of U.S. law and international treaties and end the misuse of Title 42 public health authority and other border policies that block Black asylum seekers from requesting U.S. refugee protection. 2) Release individuals and families from immigration detention centers using existing parole and other legal authority so that they can safely shelter with family and communities as they wait for their cases to be decided. 2) Designate or redesignate Temporary Protected Status for people from countries experiencing civil, political, or humanitarian crises that make it unsafe for them to return, including for the majority Black countries of Haiti, the Bahamas, Cameroon, Guinea, Mauritania, Sierra Leone, Somalia, South Sudan, and Sudan, and ensure the fair and efficient administration of the Liberian Refugee Immigration Fairness program. 4) Revoke illegal Trump administration asylum policies and rulings to restore U.S. asylum protections and ensure that asylum claims are fully and fairly adjudicated and that members of our communities are afforded their due process rights. 5) Ensure that people seeking safety in the United States who were unjustly or unlawfully deported or expelled can return to seek protection without delay or other roadblocks to their due process rights.

**ISSUE: PUBLIC HEALTH INFRASTRUCTURE SAVES LIVES ACT**

General Content: The Public Health Infrastructure Saves Lives Act would establish a Core Public Health Infrastructure Program at the Centers for Disease Control and Prevention (CDC), awarding grants to state, local, tribal, and territorial health departments to ensure they have the tools, workforce, and systems in place to address existing and emerging health threats and reduce health disparities. Specifically, the bill would provide dedicated funding for SLTT public health capabilities, ramping up from \$750M in FY22 to \$4.5B per year by FY26. The program would provide formula and competitive grants to health agencies to invest in core public health infrastructure, in areas such as assessment, all-hazards preparedness, policy development, communications, community partnership, organizational competencies, accountability, and equity. These are the cross-cutting capabilities that enable public health departments to successfully implement a range of programs and services across the public health spectrum, as well as strengthen the pandemic response.

## **ISSUE: AMERICAN RESCUE PLAN ACT**

General Content: Letter to HHS as it implements COVID response funding from the American Rescue Plan Act, to continue to prioritize funding for communities that have been disproportionately impacted.

Sent to: Newly confirmed HHS Secretary Becerra and CDC Director Walensky

Sponsored by: Trust for America's Health

## **ISSUE: RECOVERY ACT PRIORITIES**

General Content: Letter to the White House, articulating priorities for the next recovery/infrastructure/jobs bill. The request highlights 1) Support workers and families; 2) Invest in sustainable infrastructure, specifically housing infrastructure and access to high-speed internet; and, 3) Create good jobs.

Sent to: President Biden

Sponsored by: Friends Committee on National Legislation

## **ISSUE: PAID LEAVE**

General Content: Paid leave undergirds other care systems and supports. It is an issue of racial justice, gender equity, disability rights, small business support, public health, economic growth and justice. It's important to rural workers, frontline workers, parents, caregivers, and every working family in this country. It has broad bipartisan support. It is both transformative

Sent to: Speaker Pelosi, Leader Schumer, Leader McCarthy, Leader McConnell

## **ISSUE: THE RECOVERY PLAN**

General Content: Letter to President Biden and VP Harris, seeking fair revenues so that the Recovery Plan to come is of the scope needed, including strengthening of our human infrastructure. this request is very important for three reasons: 1) The more revenue BBB raises the more money there will be for investments. 2) Raising taxes on the rich and corporations -- a fair share tax system -- is central to creating a just economy that provides racial and gender equity. 3) It is good politics: if we can get a BBB agenda passed that begins to create a fairer tax system, we are further discrediting the supply-side trickle-down tax cuts narrative of the last 40 years and creating a new narrative centered on a government that invests in people and communities by making the rich and corporations pay their fair share of taxes.

Sent to: President Biden and Vice-President Harris

Sponsored by: Americans for Tax Fairness

## **ISSUE: CDC'S REACH PROGRAM FUNDING IN FY 2022**

General Content: The letter request that both the Senate and House Subcommittee on Labor, HHS, and Education committees promote the health of all individuals regardless of race, ethnicity, or socioeconomic status, urge you to provide at least \$102.5 million in the FY 2022 Labor, Health and Human Services, and Education Appropriations bill for the Centers for Disease Control and Prevention's Racial and Ethnic Approaches to Community Health (REACH) program. More specifically, we request \$75.5 million for CDC's REACH grant program and \$27 million for its

affiliated program Good Health and Wellness in Indian Country (GHWIC) to address the disproportionate impact of chronic disease on racial and ethnic populations in urban, rural and tribal areas.

### **ISSUE: CHILD CARE AND EARLY LEARNING RECOVERY LETTER**

General Content: A letter to the administration thanking them for their heir leadership to secure the more than \$50 billion total in child care relief, and laying out what's needed to build back better in the recovery to ensure that children can thrive, early educators—virtually all women and disproportionately BIPOC women--are valued, and that parents—especially mothers—are able to fully participate in our economic recovery. This investment is not only essential for our nation's economic recovery, it's a critical part of racial and gender justice.

## **NAC FOCUS AREA: RACISM**

### **ISSUE: COVID-19 RELIEF PACKAGE**

General Content: Congress faces one question: Will we allow this pandemic to further increase longstanding racial and geographic disparities, or will we finally make the choice to prioritize an equitable rescue and recovery for our communities and our nation? The House Bill addressed these injustices and paves the way for states to expand Medicaid access.

### **ISSUE: FUNDING THAT SUPPORTS ALL PEOPLE**

General Content: Letter showing support for the CDC's Racial and Ethnic Approaches to Community Health (REACH) program in previous years and urging Congress to fund at least \$102.5 million in the FY 2022 Labor, Health and Human Services, and Education Appropriations bill, including \$75.5 million to continue scaling to all states and U.S. territories and support grantees in building capacity for collaboration and disseminating evidence-based strategies in communities for the CDC REACH funding and GHWIC at \$27 million to expand Tribal Epidemiology Centers for Public Health Infrastructure and continue the program's important work. Letter ends with thanking them for their support for the elimination of racial and ethnic health disparities to create a healthy and equitable future for all.

## NAC FOCUS AREA: ENVIRONMENTAL DEGRADATION

### **ISSUE: CLEAR AIR ACT**

General Content: The Clean Air Act petition is designed to cut methane and ethane emissions from the fossil fuel industry, which are precursors to smog. While other precursors to smog have been regulated under the CAA for years, methane and ethane have received a free pass despite their contribution to climate change and serious public health harms. Smog can cause asthma, which afflicts 1 in 13 Americans. It is time for the EPA to close this loophole by regulating methane and ethane as volatile organic compounds under the Clean Air Act.

### **ISSUE: JUSTICE FOR ENVIRONMENTAL ACTIVIST, BERTA CACERES**

General Content: Letter expresses concern about the repeated delays in the trial of David Castillo, who is accused of being the mastermind behind the assassination of Honduran indigenous leader and environmental activist Berta Cáceres five years ago. There is equal concern for the safety of the Cáceres family and members of the organization she founded, COPINH. We urge that you request that the Secretary of State impress upon the Honduran government the importance of a transparent, expeditious trial in this case and to guarantee the safety of the Cáceres family and their lawyers during the trial.

### **ISSUE: END THE PUBLIC CHARGE RULE**

General Content: Letter urging the Secretary of the U.S. Department of Homeland Security to end the Trump Administration's public charge rule by directing the Department of Justice to withdraw its appeals on litigation challenging the Trump DHS public charge regulations, while DHS moves forward on regulatory action.

### **ISSUE: PROTECTION FOR REFUGEES**

General Content: The Biden administration has already proposed and met with Congress to discuss increasing the refugee admissions goal for this year to 62,500 to meet the unprecedented

and ever evolving refugee crisis. It is vital that President Biden sign the revised refugee admissions goal for FY21 and restore regional allocations based on vulnerability and need as soon as possible. Urgently signing the new refugee admissions goal will prevent the cancelation of travel for hundreds of refugees scheduled to arrive over the coming weeks and reverse much of the damage done to the resettlement program under the previous administration.

### **ISSUE: UNJUST CONFINEMENT BY ICE**

General Content: Letter in support of Wilmer Elias-Mendoza, a disabled Honduran asylum-seeker and victim of trafficking who has been held in solitary confinement for nearly 3 weeks. He has been detained for over 2 years after being unjustly criminalized under the ICE priorities set by the Trump Administration, and has experienced medical and mental health neglect. Wilmer's situation is emblematic of how the new Biden guidelines regarding immigration enforcement are not being properly applied to those who are already detained. For Wilmer, and for many migrants who have endured prolonged detention under the cruel Trump policies, nothing has changed.

### **ISSUE: COMMUNITIES NOT CAGES**

General Content: A call on this administration to begin the long overdue process of phasing out the use of detention from our immigration system. Letter asking the administration to urge Congress and the new administration to take swift moral action towards ending immigration detention, beginning with ending the contracts and closing the first ten detention centers listed below, and move our nation in the direction towards humane treatment and effective community alternatives to detention.

Sent to: President Biden, Vice President Harris, and Secretary Mayorkas,

## **ISSUE: PHASING OUT DETENTION**

General Content: Request to the Biden administration to begin the long overdue process of phasing out the use of detention from our immigration system in order to create community-based alternatives to detention during their first 100 days in office.

Sent to: Biden Administration

Sponsored by: Church World Service

## **ISSUE: REFUGEE ADMISSIONS GOAL**

General Content: Letter to President Biden urging that the administration promptly sign an updated refugee admissions goal for FY21 and lift the restrictive allocations currently in place. The revised FY21 refugee admissions goal of 62,500 and restore regional allocations based on vulnerability and need. Each day that passes without this signed executive action is another day that hundreds of particularly vulnerable refugees are forced to wait to be resettled. Urgently signing the new refugee admissions goal will honor President Biden's promise to protect refugee families - and reverse much of the damage done to the resettlement program under the previous administration.

## **ISSUE: END DISENTANGLEMENT BETWEEN ICE AND LOCAL LAW ENFORCEMENT**

General Content: Letter petitioning to end three programs and practices by Immigration and Customs Enforcement (ICE) that harm our families and jeopardize community bonds: the 287(g) program, Secure Communities, and ICE detainers. Families should not have to live in fear that local officials meant to help them in emergencies could actually send them or a loved one to ICE to be deported. It's time to end ICE's use of state and local resources and our faith support will be important.

**ISSUE: CONGRESSIONAL REVIEW ACT**

General Content: Letter to Congress urging them to support the Congressional Review Act that challenges the OCC’s final rule, “National Banks and Federal Savings Associations as Lenders,” which will unleash predatory lending in all fifty states. It will eviscerate the power of state interest rate caps and rid state regulators of the single most effective tool to protect consumers from predatory lending.

**ISSUE: EVERY CHILD DESERVES A FAMILY ACT**

General Content: Together, we can help increase the access of all children to affirming, loving and stable homes. Currently, LGBTQ+ parents are four times more likely to have our children removed by the state, simply due to discrimination. And, one in three foster children identify as LGBTQ+, but have much worse experience in care, with fewer family placements and higher rates of residential facility placement, homelessness, being trafficked, and aging out of care without a family. Civil rights icon John Lewis was the lead sponsor of the Act for eight years.

**ISSUE: MAKE THE CTC EXPANSIONS PERMANENT AND REACHING ALL KIDS IN NEED**

General Content: In a letter to the Administration is urged to include critical improvements and reforms to expand it to all children who need it and to ensure that the money follows the child to create a true, direct child allowance program. This is a public investment deeply connected to racial justice, child and family well-being, and families and children living in poverty and hard to reach populations.

**ISSUE: JUSTICE IN POLICING ACT OF 2020**

General Content: This bill is a revision to one that NAC/RGS signed on to previously. It addresses a wide range of policies and issues regarding policing practices and law enforcement accountability. It includes measures to increase accountability for law enforcement misconduct, to enhance transparency and data collection, and to eliminate discriminatory policing practices. The bill also creates a national registry—the National Police Misconduct Registry—to compile data on complaints and records of police misconduct. It establishes a framework to prohibit racial profiling.

## **ISSUE: FOR THE PEOPLE ACT (H.R.1)**

General Content: Faith -based advocates and congregations strive for policies that diminish inequality, support the most vulnerable, nurture human potential, root out systemic racism, and protect the health and well-being of all members of our society and of creation. A broken democracy has clear and detrimental impacts on the issues important to us. The democratic systems that underlie our advocacy no longer seem capable of contending with the big problems facing our country, our communities, and our congregations.

## **ISSUE: NO BAN ACT**

General Content: The No Ban Act would: 1) Require the executive branch to meet a more stringent and reasonable standard before issuing future bans. Under current law, the executive branch claims the authority to bar the entry of large groups of people, including entire nationalities, without effective accountability or regard for the policies codified in other parts of the Immigration and Nationality Act. Rather than continue to use this dangerously overbroad standard, the NO BAN Act would require the executive branch to meet a standard based on "specific and credible facts" that any suspension of or restriction from entry must be connected to "specific acts" that have actually occurred. Furthermore, the bill requires that any such suspension or restriction meet a compelling government interest and that the government use the least restrictive means in doing so. 2) Establish a system of checks and balances whereby Congress would be routinely notified and briefed on the status, implementation, and constitutional and legislative authority of executive branch actions. 3) Expand the non-discrimination provision of the INA by prohibiting discrimination based on religion. This bill is a significant step forward for Muslim and African communities and others who could be targeted and discriminated against in the future.

## **NAC FOCUS AREA: VIOLENCE**

### **ISSUE: TO PREVENT AND REDUCE VIOLENT CONFLICT AND BUILD PEACE IN THE UNITED STATES**

General Content: Request for the allocation of dedicated and robust funding to reduce and prevent violent conflict, rebuild our democratic institutions, and build sustainable peace. Proliferation of misinformation, systemic injustice, and economic inequality exacerbated by the global pandemic are driving the grievances and conflict in the United States. Recommended amounts and usage: \$40 million in terrorism prevention grants; allocating \$10 million for research and pilot programs to support trauma and mental health program linked to the commission of violent extremism; \$40 million for Community Relations Services; \$31 million per year for five years to support a pilot program within the Department of Justice modeled upon the U.S. Agency for International Development's acclaimed "people to people reconciliation program.;" \$10 million for this research and pilot programming aimed at understanding the impact of policing on communities, changing police culture and community-based education around policing.

### **ISSUE: MILITARY STRIKE IN IRAN**

General Content: In response to the recent strike in Iran by the US military in which 22 people were killed, a letter was sent by faith groups to President Biden. "As people of faith, we have a deep sense of the sacred dignity of all people. We also have a clear conviction of our sacred call as human beings to seek all possible creative, nonviolent approaches to transform conflict and meet the needs for accountability." The need for a broader more adequate moral analysis to determine strategy and action in such situations was demanded. "It is not a coincidence that our Black, indigenous and people of color community in the U.S. suffers from this retributive focus in our criminal justice system, and that people in the Middle East, particularly Iran and Syria, have been consistently suffering from these retributive acts of human destruction. Our habits, policies, and institutions of systemic racism are a notable aspect of this reality. With your Administration's commitment to addressing racial justice and equity, we ask you to apply that in foreign policy as well and shift away from these patterns."

### **ISSUE: STOP MILITARIZING LAW ENFORCEMENT ACT OF 2021**

General Content: The Stop Militarizing Law Enforcement language would preserve the important distinction between our military and our police by ending transfers of certain destructive and aggressive military equipment to local law enforcement. This text is the very same language included in the George Floyd Justice in Policing Act of 2020 and 2021, excepting a small technical change to conform to the codification of the FY21 NDAA.

Decades of militarization of our police forces have led to our local police looking more like an occupying army than a community-based regulatory arm of state and local governments. The

images from the civil rights demonstrations last summer show irrefutable proof of our police forces' increasing aggression and brutality – images of local police in military formations, with military-style weaponry trained on citizens exercising their constitutional rights. While this is a multi-layered issue, the Stop Militarizing Law Enforcement Act language goes a long way in demilitarizing our police forces while not sacrificing the safety of our communities.

#### **DEMOCRACY IN MYANMAR**

U.S. Catholic Organizations Raise Our Voices for Democracy in Myanmar. We, the undersigned national Catholic organizations in the United States, stand in solidarity with the people of Myanmar in their fervent hope for democracy and peace. We call on President Biden and Congress to hear their cry and issue targeted sanctions against businesses owned by the military and work with other countries to impose a global arms embargo to support the nonviolent resistance to the military coup.

‘As Catholic sisters, brothers, priests, and laity in the United States, we join our voices as well to the Sisters of the Good Shepherd, who have members in Myanmar.’

## **Joint Statement by Religious Leaders**

### **CALL FOR PEOPLE’S VACCINE**

As religious leaders, we bear witness to the personal stories behind the Covid statistics. We hear the cries, shared with us each day, of the suffering, the frightened and the bereaved.

We witness to the profound love shown by those working on the frontlines, and by those who reach out to help their neighbors.

The Covid crisis reminds us all of our interdependence, and of our responsibilities to care for one another. We can each only be well when all of us are well. If one part of the world is left to suffer the pandemic, all parts of the world will be put at ever-increasing risk.

People’s access to life-saving vaccines cannot depend on our wealth, status, or nationality. We cannot abdicate our responsibilities to our brothers and sisters by imagining that the market alone can resolve this crisis, or pretend that we do not have obligations to people beyond our borders. Every life has equal value.

Right now, we are greatly alarmed by the terrifying shortage of vaccine doses needed to end the pandemic. While wealthy nations are ramping up vaccination efforts and starting to see deaths decline, in low- and middle-income countries, vaccines are barely beginning to trickle in. At the current pace, much of the world may not be vaccinated until 2024. The consequences for the poorest individuals, families, and communities will be devastating.

This historic global emergency calls, above all, for human solidarity. The same spirit of unity and common purpose that drove scientists to develop Covid vaccines at breathtaking speed, and that drives the care of those tending to the sick, must also inspire leaders of government, the private sector and civil society to scale up vaccine production and ensure rapid, equitable access. This must include the open sharing of successful vaccine recipes. We cannot put intellectual property and the monopolies of pharmaceutical companies ahead of the lives of millions.

As religious leaders, we join our voices in an urgent call for a People’s Vaccine – a vaccine that is available to all as a global common good. This is the only way to end the pandemic. Let us work together to build a more just and peaceful world.

To love is to take action.
